IMPORTANT TO PURCHASERS

READ CAREFULLY

EARLY ORDERS. Place your orders early, as it is almost impossible during the rush of the planting season to fill an order on short notice without an injustice to others who have their orders previously booked. We practice filling orders in rotation as received, in accordance, however, with locality and suitable planting season. In making up your order please give the price or size wanted to avoid delays and errors.

SHIPPING FACILITIES. We are admirably located for making shipments, having the C. C. C. & ST. L. (Big Four) Railroad East and West, the B. & O. Railroad North and South; also the Western Ohio Electric, all of which connect with various lines. We have the Express Companies for above railroads, assuring you of prompt and direct service. Unless definite instructions are given, and these can be consistently followed, we must use our best judgment as to how to ship.

PARCEL POST. When found practical we ship by Parcel Post. The roots are wrapped in damp packing material so will carry to most distant states in good condition, unless delayed or left exposed in transit, over which we have no control. In ordering plants by mail please bear in mind that parcels are limited as to size and weight, and large sizes cannot always be sent by mail. Occasionally we find it necessary to express some orders that are wanted by parcel post, or send by Parcel Post some wanted by Express, but such change is made only for good reasons.

PLANTS BY EXPRESS. This is the most satisfactory method of transportation, as it enables us to give good values in the form of fine, large plants and usually receives good care in transit. We do not prepay express shipments, but can send larger plants, and if goods are miscarried they are more easily traced, and if damaged in transit easier to adjust such damage as may have occurred. When sent by express we usually send some extras to help defray the charges. In case of any damaged stock notify the express agent immediately of the damage as they as carriers are liable for any damages while in transit. Let them also make notation of damage on your express receipt or bill so that no controversies arise later with claim department.

FREIGHT SHIPMENTS. This method of shipment is advised only with heavy and bulky stock. Our direct lines North, East, South and West, give us great shipping advantages over those who have only one railroad. In case of any damage to shipment while in transit handle as explained for express shipments.

GUARANTEE. Most failures with plants and bulbs growing are due to causes entirely beyond our control, such as unfavorable weather and soil conditions, too deep or too shallow planting, delays and exposures in transit, etc., which renders it impossible for us to guarantee success of growth. We take all possible care to supply such stock as will, under proper conditions, produce satisfactory results. We do guarantee stock to be true to name, and will upon proper proof, replace any that may prove untrue.

REMITTANCES. Remittances should be made by Post Office Money Order, Registered Letter, Bank Draft, or Express Money Order. Our terms are cash, and remittance should accompany order unless satisfactory references are given. Send remittance with order to avoid delays.

SPECIAL NOTE. Write your name and shipping address plainly on the sheet containing your order to avoid mistakes and delays. Many orders are received without any address which always causes much annoyance, delays and dissatisfaction.

ROSES

Most Glorious Flower of the Garden

The rose is a source of interest to all flower lovers everywhere, and a necessity to every well-planted garden. The demand for good garden roses is greatly on the increase. People are beginning to appreciate the value of introducing roses more boldly in with general plantation. At the same time the "rose garden" is extending its appeal.

One may use roses profitably anywhere, often in very restricted space. They have manifold uses as practical climbers, covering ugliness with beauty, covering bare banks and walls with color and grace.

We send out only strong, well-rooted plants, in perfect condition for "taking hold" vigorously in alien soil.

Our collection of free-blooming hardy roses, such as we urge for general selection, is second to none. This list includes varieties adapted to every purpose, house walls, trellis, pergolas, rose groups, etc.

X-tra Size Roses

Where you see the "X" you will find one of the choicest varieties and in extra large size plants. WAGNER PARK ROSES grow to perfection everywhere, but special attention is called to our Extra large size plants which are marked with an "X" preceding the name, indicating the quality of the largest size. These varieties have been given special attention, and we have obtained some very fine, heavy plants of them.

We place our knowledge of roses at your disposal, being very glad to help you, when it is desired, in the selection of varieties and offering information on the subject of successful rose culture. We make special designs also of rose gardens, rose walks, etc.

Wagner Park Famous Cochet Roses

The real Rose lover cannot afford to miss these particularly famous Cochet Roses. The three varieties we offer are not surpassed by any others in beauty of flowers and productiveness. They are constantly in bloom and are hardy in all localities, except the extreme north, where protection and mulching is necessary to bring them through some winters we frequently experience.

x Maman Cochet Red

An exceedingly beautiful and splendid Rose for general planting. Very vigorous and healthy, throwing up strong shoots, and producing great masses of beautiful blossoms, and this is continuous throughout the entire season. Flowers are very large, fully double, and sweetly scented. Color a bright rose-red, elegantly shaded. A most valuable everblooming variety. 1-yr. size, 25c; larger size, 35c; 2-yr. size, 75c; X-tra size, \$1.00 each.

x Maman Cochet White

A remarkable free blooming variety equal to Maman Cochet Pink in every particular. The blossoms are large, fully double, and a pure white in color, very fragrant, and should be included in every Rose collection. 1-yr. size, 30c; larger size, 40c; 2-yr. size, 75c; X-tra size, \$1.00 each.

x Maman Cochet Pink

A deliciously sweet-scented Rose and a most vigorous grower. The flowers are superb and we consider it one of the choicest and most beautiful roses grown. The buds are long and pointed and flowers are of enormous size, very full and double. The color is a rich pink, elegantly shaded with rose and crimson. An excellent bedding variety. Very free to bloom, even as a pot plant for the house. 1-yr. size, 35c; large size, 45c; 2-yr. size, 75c; X-tra size, \$1.00 each.

Two Marvelous Hardy Everblooming Roses

x Gruss an Teplitz

(Crimson Hermosa). This grand Rose has proven one of the best and most valuable hardy crimson everblooming Roses for garden planting ever introduced. The color is dark, rich crimson, passing to velvety, fiery red, the brightest colored Rose we know. Flowers large, full and sweet; blooms constantly, throwing up fresh buds and flowers the whole growing season. 1-yr. 30c; larger size, 40c; 2-yr. 75c; X-tra size, 90c.

x President Taft

This is undoubtedly the finest bedding Rose yet introduced. The flowers are double, very sweet-scented, and are of deep pink color. They are free from disease. 1-yr. size, 35c; larger size, 45c; 2-yr. size, 75c; X-tra size, \$1.00.

Wagner Grown Roses For Southern and Pacific Coast States

TEA OR EVERBLOOMING ROSES

This class of Roses is celebrated the world over for their delicious fragrance and the exquisite forms and rich, charming tints of their beautiful flowers. They are without question the most profuse of all, being in flower throughout the entire growing season; especially grown for the Southern and Pacific Coast States, although they may be planted in the Northern States but must be protected over winter. Our list comprises only the best and choicest varieties.

Maman Cochet

Mrs. Aaron Ward. A fine, strong grower and free of bloom. Buds are deeply cupped, the open flowers delightfully attractive. Color, deep golden orange, shading outward to creamy yellow. 1-yr. size, 35c; larger size, 45c; 2-yr. size, 85c.

Dear Sirs:

Avonmore, Pa.

Wish to thank you for the fine rose bushes which came in last Friday. They were in excellent condition; am well pleased with the selection. Also wish to thank you for the nice primrose plants. Wagner Park flowers surely are hardy. I had those plants a week and then planted in pots; they are all growing fine.

Yours very truly,

H. W.

OUR "LARGER SIZE" ROSES ARE THIRTY, VIGOROUS PLANTS, FINE FOR GENERAL PLANTING AND WILL PRODUCE GOOD RESULTS

Hardy Everblooming Roses---Hybrid Teas

Our One-Year Size of Most Varieties Will Bloom Profusely the First Season. Our "Larger Size" will produce fine results.

This is a class of roses for general planting everywhere. The great advantage claimed for them is that they combine the hardiness of the Hybrid Perpetual with the constant blooming qualities and delicious fragrance of the Tea Roses. These varieties we list include only the choicest, and your surprise will come from the quantities of beautiful blossoms they produce; excellent for Southern and Pacific Coast gardens. Hardy in all localities and without protection, except in the Northern States, where a mulch and protection will be necessary.

Anna Marie Soupert. Very large, full flower, on good, stiff stems; color, bright lake red; very fragrant. 1-yr. size, 25c; larger size, 35c; 2-yr. size, 65c.

Antoine Rivoire. An ideal bedding Rose of large size, exquisite form and coloring, which is soft peach flesh with deeper shadings; the base of the petals yellow. 1-yr. size, 35c; larger size, 45c; 2-yr. size, 75c.

Bessie Brown. Full, deep flowers; color, pure white, clouded flesh pink. 1-yr. size, 25c; larger size, 35c; 2-yr. size, 60c.

Burbank. The color is described as cherry crimson—it is, in other words, the very deepest and brightest pink Rose in cultivation. It is adapted for both out-door planting or for blooming pots. 1-yr. size, 25c; larger size, 35c; 2-yr. size, 75c.

British Queen. Fine white. 1-yr. size, 25c; larger size, 35c; 2-yr. size, 75c.

Champion of the World. Lovely clear, deep pink. 1-yr. size, 25c; larger size, 35c; 2-yr. size, 75c.

Countess of Shaftsbury. Bright, silvery-carmine, mottled and flushed pale shell-pink at the edges of the petals. 1-yr. size, 30c; larger size, 40c; 2-yr. size, 75c.

Duchess of Albany. The flowers are very double and full and deliciously sweet; in color lovely rose-pink, very deep and exquisitely shaded. 1-yr. size, 35c; larger size, 45c; 2-yr. size, \$1.00 each.

Ecarlate. Color a solid, brilliant scarlet. Profuse bloomer, strong, sturdy grower. 1-yr. size, 35c; larger size, 45c; 2-yr. size, \$1.00.

Edward Mawley. A beautiful rich crimson, touched with maroon, with a delightful velvety gloss on the petals, very fragrant. 1-yr. size, 35c; larger size, 45c; 2-yr. size, \$1.00.

Etoile de France The flowers are a shade of clear red crimson-velvet; very fragrant. 1-yr. size, 25c; larger size, 35c; 2-yr. size, 75c.

General MacArthur. Dazzling crimson scarlet. 1-yr. size, 25c; larger size, 50c; 2-yr. size, 75c.

Gladys Harkness. Salmon pink. 1-yr. size, 25c; larger size, 35c; 2-yr. size, 75c.

Helen Gould. Rosy Crimson. 1-yr. size, 25c; larger size, 35c; 2-yr. size, 75c.

Hermosa It would be a waste of words to write a lengthy description of Hermosa. The color is a most pleasing shade of pink, very fragrant. A grand Rose for bedding or pot culture. 1-yr. size, 25c; larger size, 35c; 2-yr. size, 75c; X-tra size, \$1.00.

J. L. Mock. Color light red, shaded pink. 1-yr. size, 25c; larger size, 35c; 2-yr. size, 75c.

x Kaiserine Augusta Victoria This is the finest and largest white Rose for summer blooming. The flowers are pure white and ideal in form. 1-yr. size, 35c; larger size, 45c; 2-yr. size, 75c; X-tra size, \$1.00.

Killarney Brilliant Most beautiful, large, brilliant pink. Very fragrant. 1-yr. size, 35c; 2-yr. size, 75c.

Killarney. Double White. Waxy-white flowers. 1-yr. size, 35c; 2-yr. size, 75c.

Lady Ashton. The flowers are large, double with high-pointed center, and are a soft rose, shading to yellow at the base of petals. 1-yr. size, 35c; 2-yr. size, 75c.

x La France (Pink). Color peach blossom clouded rosy pink. 1-yr. size, 35c; larger size, 45c; 2-yr. size, 75c; X-tra size, \$1.00.

Hybrid Perpetual Roses

MOST BRILLIANT CLASS BECAUSE OF THEIR LARGE, SWEET, BRILLIANT COLORED FLOWERS

The best class to plant, especially in the Northern States, owing to their hardiness. While they particularly need no protection, a good mulch for winter after the wood is well ripened will be beneficial. While they are called Perpetual, they are not constant bloomers, except those so noted. We list only the choicest varieties and in two-year-old plants and X-tra large sizes.

- x Alfred Colomb. Double and full; color, bright carmine crimson. 2-yr. size, \$1.00; X-tra size, \$1.50.
- American Beauty. Color, deep rose. Foliage and size of flower resemble the large Hybrid Perpetual. 2-yr. size, \$1.00.
- x Frau Karl Druschki. Fine snow-white, free from any yellow or rose tints. Large 2-yr. size, \$1.00; X-tra size, \$1.50 each.
- x Gen. Jaqueminot. One of the most satisfactory to grow. A rich crimson scarlet. Large 2-yr. size, \$1.00; X-tra size, \$1.50 each.
- x J. B. Clark. An intense deep scarlet-rose, shaded dark crimson. A wonderfully strong and upright grower, exceedingly vigorous. 2-yr. size, \$1.00; X-tra size, \$1.50.
- x Magna Charta. The color is a beautiful bright pink, suffused with carmine. Large 2-yr. size, \$1.00; X-tra size, \$1.50.
- x Madame Chas. Wood. Flowers are extra large, very double, full and quite fragrant. Color, bright, fiery scarlet. 2-yr. size, \$1.00; X-tra size, \$1.50.
- x Mme. Gabriel Luizet. Pale pink. A delicate and beautiful tint; very sweet. 2-yr. size, \$1.00; X-tra size, \$1.50.
- x Madame Masson. Flowers large, color a clear bright rose, highly perfumed. 2-yr. size, \$1.00; X-tra size, \$1.50.
- x Madame Plantier. The iron clad white cemetery rose; bears hundreds of beautiful snowy-white, fragrant blossoms. Large 2-yr. size, 85c; X-tra size, \$1.25.
- x Marshall P. Wilder. Bright, cherry-carmine, very fragrant. Large 2-yr. size, \$1.00; X-tra size, \$1.25.
- x Mrs. J. H. Laing. A grand sort, with satiny flowers of soft, delicate pink. Large 2-yr. size, \$1.00; X-tra size, \$1.50.

Magna Charta

- x Paul Neyron. Long, stiff, thornless stems, with cup-shaped flowers. Bright rose pink. Large 2-yr. size, \$1.00; X-tra size, \$1.50.
- x Prince Camille de Rohan. Dark velvety crimson, changing to maroon. 2-yr. size, \$1.00; X-tra size, \$1.50.
- x Ulrich Brunner. Shell-shaped petals. Color, cherry red. Large 2-yr. size, \$1.00; X-tra size, \$1.50.

Hardy Everblooming Dwarf Bedding Roses

Used extensively for edging beds of other roses. They are compact, bushy and produce immense trusses of semi-double flowers from spring until frost.

- Annie Muller. Bright pink. 1-yr. size, 25c; larger size, 35c; 2-yr. size, 75c.
- Catherine Zeimet. White flowers. 1-yr. size, 25c; larger size, 35c; 2-yr. size, 75c.
- Crimson Baby Rambler. This variety has the same bright crimson color as the climbing form. Can also be grown in pots with good results. 1-yr. size, 20c; larger size, 30c; 2-yr. size, 75c.
- Jean D'Arc. Very free flowering. Flower trusses very large and a pure milk white. 1-yr. size, 25c; larger size, 35c; 2-yr. size, 75c.
- Jessie. Brilliant crimson. 1-yr. size, 35c; larger size, 45c; 2-yr. size, \$1.00.
- Mrs. W. Cutbush. A new dwarf rose. Color light pink, yellowish center. 1-yr. size, 30c; larger size, 40c; 2-yr. size, \$1.00.
- The Orleans Rose. Geranium red, shaded rose. 1-yr. size, 30c; larger size, 40c; 2-yr. size, \$1.00.

Rugosa Roses

Rugosa-Rubra The Rugosa Rubra are especially suited for our Northern climate, owing to their extreme hardiness and sturdy growth. The foliage of these Roses is most beautiful, being a shining, rich, dark green and oddly wrinkled. The blossoms are usually single, but very large and showy, and followed in autumn with a profusion of beautiful orange-red or crimson fruits. Excellent for hedges or for planting among shrubbery or hardy borders. 2-yr. size, 75c; X-tra size, \$1.00

- x Conrad Meyer. Clear, silvery pink color. 2-yr. size, 75c; X-tra size, \$1.00.
- x New Century. A magnificent rose, flowers large and perfectly double. Color, flesh pink with bright red center, petals bordered creamy white. 2-yr. size, 75c; X-tra size, \$1.00.
- x Sir Thomas Lipton. Double white rose, beautiful in foliage. 2-yr. size, 75c; X-tra size, \$1.00.

Wagner's Hardy Flowers

The Garden of Hardy Flowers is of gorgeous bloom from earliest spring until frost, glorified by its appropriate flowers from month to month, new things each day to delight you. Year after year this goes on and the garden increases in beauty and loveliness, practically without any expense other than the first cost. Hardy flowers require less care and attention, are more free from insects and disease, yet producing abundance of beautiful blossoms. Among the Hardy Flowers are found all the old-time favorites and some of the noblest plants that have been dear to our Grandmother's garden, famous in song and story—a fragrant memory of gay sweetness. Hardy Flowers even defy the "melancholy days", for the autumn perennials—the cheerful asters, the dainty Michelmas Daisies, the many new varieties of Phlox of myriad pastel tints. Even after frost there are the gay hardy chrysanthemums, the "pompon" of Grandmother's day. Wagner Perennials are strong, splendid plants and include practically everything worth growing in the temperate zone. The vigor, the robust roots of Wagner-grown plants have advertised the merits of Wagner Nursery in every part of the country.

Abbreviations Letters D., M. and T. immediately following the name of varieties indicate the height of the various kinds when fully matured, viz.: (D) indicates growing heights from 6 to 15 inches, plant these varieties from 6 to 15 inches apart. (M) indicates height from 15 to 36 inches, plant these varieties 12 to 30 inches apart. (T) indicates height from 36 to 60 inches, plant these varieties from 30 to 48 inches apart. There is no set rule as to distance for planting the various varieties. That is a matter of taste for some prefer heavy mass effects, requiring close planting while more open effects require planting farther apart. We give the two extremes as to distance but one may deviate from this rule, planting closer or farther as desired.

Mulching While mulching plants for winter is very beneficial and with many varieties necessary, especially the first winter, many make the mistake of putting the mulch on too early before the plants are well ripened which frequently causes the green growth to decay and will sometimes rot the very crown and heart of plant life or growth. Again this early mulching frequently starts new growths owing to the heat of the mulch, which are killed when the freezing sets in. For best success do not mulch heavily until the ground is thoroughly frozen when the covering or mulch will keep the soil at an even temperature throughout the entire winter and when removed in spring the new growth will readily start fresh and vigorous, producing healthy, sturdy stalks and flowers.

Aegopodium Variegata. (D) A rapid growing plant with variegated foliage, thriving in any soil; for covering waste or barren spots. Thrifty plants, 15c; large size, 25c; clumps, 50c.
ANCHUSA Italica. (M) June, July. Deep blue flowers. Thrifty plants, 25c; large size, 35c; clumps, 50c to 75c.
ANEMONE Japonica Alba. (D) Individual blossoms very large; snowy white. Very useful for cutting. Choice variety. Thrifty plants, 40c; large size, 50c.

BAPTISIA Australis. (M) Handsome, dark green, fern like foliage. Flowers pea-shaped, and bright blue. Baptisia withstands drought exceedingly well. Large size, 35c; clumps, 50c to 75c.

BOCCONIA Cordata. (T) Flowers in terminal panicles of a creamy white color. Large size, 35c; clumps, 50c.

BOLTONIA Asteroides. (T) One of the showiest of our native perennials, closely resembling and allied to the hardy Asters, flowers pure white. August and September. Thrifty plants, 20c; large size, 35c; clumps, 50c.

CASSIA Marilandica. (American Senna) July to August. Large panicles of bright yellow. Very distinct. Large size, 35c; clumps, 50c.

ASTER Tartarica (M) An exceptionally strong grower and a plant of great hardiness as it will endure almost any kind of exposure and cold without the least protection. The foliage is of good green color all season and in late summer and fall the plants are a mass of bloom produced on long erect stems. The color of flowers are a bright lilac purple and in many cases produce from 50 to 100 individual blossoms on one stem. The plant does well in any soil or situation. Best results are obtained when given a liberal feeding of well rotted manure in early spring and work into the soil around the plants or put on in late fall and remain on all winter. If after planted some time and plants become too thick owing to its rapid growth, remove same to allow cultivation or transplant them. Thrifty plants, 15c; large size, 25c; clumps, 35c to 50c each.

Feltham Blue. (M) One of the most decorative free-flowering blue varieties. Thrifty plants, 25c; large size, 35c to 50c.

Hardy Ornamental Grasses

For ornamental purposes, such as hedging, planting in clumps to hide an unsightly object, or singly on the lawn, these grasses are strikingly original in effect and impart a degree of tropical brilliance to the landscape. The plumes which these grasses produce are large and beautiful, having a feathery appearance, and may be used for interior decoration. Absolutely hardy. All our plants are propagated from the root and hence more valuable than seedlings, which do not come true.

Few people are aware of the many ornamental grasses there are, and the extremely beautiful effects to be derived from them. They are invaluable for intermingling in the herbaceous border, where they impart a light and graceful effect. They will thrive under the shade of large trees and make handsome specimens on the lawn. Being moisture loving also, they are excellent for waterside planting, and for all other purposes which their graceful form suggest.

EULALIA Gracillima This grand variety of Eulalia forms exceedingly handsome clumps 4 to 5 feet high, which are hardy in all parts of the country. The graceful narrow foliage is beautiful, shining green with mid-rib of silvery white. Large size, 35c; clumps, 50c; extra heavy clumps, 75c to \$1.00.

Japonica One of the most beautiful of the tall-growing grasses. Bright green foliage and unusually long plumes. Large size, 35c; clumps, 50c; extra heavy clumps, 75c to \$1.00.

Japonica Variegata Standard old sort of distinctive value. Blades striped lengthwise in a handsome manner, being a combination of creamy white in the center with broad margin of bright green. Large size, 35c; clumps, 50c; extra heavy clumps, 75c to \$1.00.

Japonica Zebrina This fine ornamental grass is the finest of Eulalias for single lawn specimens or clumping. Grows 4 to 6 feet high. The leaf blades are deep green, distinctly striped crosswise with large bars of pure white. Large size 35c; clumps, 50c; extra heavy clumps, 75c to \$1.00.

Hollyhocks

Garden Lover, Have You Ever Tried a Hollyhock Path?

Nothing to do with the "Primrose Path" but incidentally almost the prettiest sight in gardenom.

AY "Hollyhock Path" is beautiful, and if you have a chance to make one don't miss it. The stately line of rose and scarlet and faintly flushed salmon sentinels, brilliant and warm in the center and paling to tender tones of nothing-at-all at the ends—well, even your blase "garden expert" gets out his enthusiasm for the Hollyhock Path.

Wordsworth, you will remember, who loved flowers and knew them, was a great Hollyhockian. His avenue of Hollyhocks at "Townsend," in lovely Grassmere, was famous. He used always to take his guests to see it. An eight foot grass walk with stately, myriad-colored shafts spring up on either side for three hundred feet.

You can approach the Wordsworth effect on your place. The plants need not be set out with great exactness but compactly; neither need color juxtaposition be considered, but firstly and lastly the plants themselves should be fine, strong, upstanding fellows. The following variety has been especially grown for our clients and will give entire satisfaction.

NEW MAMMOTH ALLEGHENY. This is a decided improvement in more than one particular over the old-fashioned variety. Its first point of merit is the fine transparent fringed chrysanthemum-shaped flowers which look as though they were made of crushed silk. The flowers are single and in great variety of color. Thrifty plants, 25c; large size, 35c to 50c.

WAGNER'S DOUBLE PINK BEAUTY. This variety is indeed a beauty and distinct from all others. Flowers most pleasing shade of soft pink and perfectly double. Thrifty plants, 25c; large size, 35c to 50c.

Double Their flowers are large, fully double, handsome in form and lively shades of color. Double White, Pink, Crimson, and Yellow mixed. Thrifty plants, 25c; large size, 35c to 50c.

Hardy Ornamental Grasses—Eulalias

PHALARIS Arundinacea Variegata. (Ribbon Grass) An excellent variety, very desirable for bordering large beds of other ornamental grasses. Thrifty plants, 10c; larger size, 25c; clumps, 35c to 50c.

HARDY FERNS. Excellent for planting in shady places or for rockery. Large size, 35c; clumps, 50c.

Helianthus Maximiliana (T) September to November. A most graceful single flowering variety; the flowers are produced in long, graceful sprays, which make it invaluable for cutting purposes. The foliage is beautiful, and remains green until late frosts. Thrifty plants, 15c; large size, 25c; clumps, 35c to 50c.

Mollis. (T) August, September. Single lemon-yellow flowers. Large plants, 35c; clumps, 50c.

Prices in Quantities Six plants of any one variety listed above will be supplied at five times the single rate price. Twelve plants at ten times the single rate price.

Day Lilies

Hemerocallis

One of the most beautiful and popular of our garden perennials. The foliage is narrow, grass-like, and remarkably free from insect enemies. These plants are so hardy that they need no protection over winter, even in the severest climates. The flowers resemble the Famous Easter Lilies. The blossoms are excellent for cutting, lasting a long while and the most backward buds will open when in water.

The culture of these plants is very simple as they thrive in almost any kind of soil, but the most luxuriant growth and profusion of blossoms may be had when planted in a shady, moist location. For massing or planting in the hardy border with other varieties of plants or shrubs it is unrivaled.

APRICOT. (D) A splendid new hybrid variety of good growth. Flowers are a rich apricot shade, a color seldom seen among plants.

DISTICHA FL. PL. (M) Broad foliage of good height. A late blooming variety. Flowers are double, orange yellow shaded copper.

DUMORTIERI. (Japanese Day Lily) (D) A dwarf growing variety and of the earliest to bloom. Flowers a rich candidum yellow, reverse of petals bronzy orange.

FLORHAM. (M) Splendid new large flowering sort; bright yellow flowers.

FULVA. (European Day Lily) (M) A variety of the earliest culture. Flowers bronzy orange color.

GOLD DUST. (D) Flowers bright Indian-yellow, buds and reverse of petals bronzy gold.

KWAMSO FLORE PLENO. This variety is equal to the Thunbergii in hardiness and luxuriant growth. The foliage is slightly broader and of a good color. Blossoms are borne on long, stiff stems and are of orange-yellow color. Its flowering period is during June and July. An excellent variety in every way.

LUTEOLA. (M) A magnificent new hybrid combining the floriferous characteristics of Thunbergii. The long-tubed, half-reflexed, bright golden yellow flowers are borne on tall branching stems, each flower very large, blooming throughout the summer.

LUTEA MAJOR. (M) A good strong grower, producing golden yellow flowers on very long stems. Very free flowering.

MIDDENDORFII. (M) This variety is a native of Siberia and Japan. The blossoms are golden yellow and are fragrant.

Hemerocallis

THUNBERGII. This beautiful variety possesses all the desirable features in hardiness and vigorous growth. Blossoms are pure yellow and sweetly scented and produced on long stems. It blooms so freely it would be practical to class it among the everblooming plants.

Prices of Hemerocallis All above varieties in strong field-grown plants, 20c each, \$2.00 per doz.; large size, 35c, \$3.50 per doz.; clumps, 50c each; \$5.00 per doz.; 4-year clumps, 75c to \$1.00 each.

Wagner Park Mallows

Hibiscus

(SEE ILLUSTRATION FRONT COVER)

These Mallows are considered as the most marvelous of all hardy plants. Their flowers are of enormous size, often measuring eight to ten inches across, and are gorgeous in color. They bloom in the greatest profusion from July to October, and when in flower are a sight to behold. The plants are as hardy as an oak, and will grow in most any soil or situation. Do not fail to include some of these in your order. We can highly recommend even the mixed colors. The stock offered here was specially selected for their sturdiness of growth and quality of flowers.

CRIMSON MALLOW. Most beautiful of all. Nothing more gorgeous in color. Large plants, \$1.00; extra large, \$1.50; clumps, \$2.00 each.

RED AND ROSE SHADES. This lot includes all choice bright shades. Large size, 75c; extra large, \$1.00; clumps, \$1.50.

PINK MALLOW. Most delicate shades of pink found among these. Large size, 50c; extra large, 75c; clumps, \$1.00.

WHITE MALLOW. Center of blossoms a rich crimson, making a fine contrast. Large size, 50c; extra large, 75c; clumps, \$1.00.

Crimson Mallow Seedlings These plants are grown from seed collected from the choicest crimson flowering plants and most of these plants will prove to be beautiful crimson and red shades. Thrifty plants, 50c; large size, \$1.00 each.

Mallows—Mixed Colors This collection includes a great variety of colors from pure white to dark red and scarlet shades. Every plant will give satisfaction. Thrifty plants, 15c; large size, 25c; clumps, 35c to 50c each.

Wagner Iris (American Grown)

The millionaire may enjoy his hothouse orchids; but nature has placed within the reach of everyone an absolutely hardy substitute, "The Iris." Mysterious as the opal with its ever changing fire, more beautiful than the orchid, so fragile as to be crushed by the slightest pressure.

Iris flourish and flower exceedingly in any ordinary soil, however, they delight in well rotted manure and deep rich soil. Many are very thirsty subjects and adorn the margins of ponds and streams. Once planted they spread and increase in beauty and luxuriance year after year. A mass of flowers of one variety gives an effect long to be remembered.

Some Special and Desirable Kinds

Oriente Blue King

One of the most beautiful of the Iris and a native of Japan. Blossoms on tall, erect stalks and are a bright clear blue. Foliage narrow, grass-like, and remains green all summer. Strong roots, 20c; large size, 35c; clumps, 50c.

Siberian

The most elegant and delicate of the Iris. Foliage narrow, grass-like with stems long and blossoms a clear blue. A very fine flowering variety, and one of the best for cutting. 20c each; large size, 30c; heavy clumps, 50c each.

Wagner's Snow White Iris Gigantea

A grand, tall, vigorous grower, producing thick, heavy dark green foliage and grows very erect. The foliage remains green all season and contrasts finely with shrubs and other plants. The large, pure, snow-white blossoms have a waxy appearance and are freely produced.

This variety flowers somewhat later, coming into bloom during June, just ahead of the Japanese. Gigantea is a variety unsurpassed for cutting and is of the easiest culture; will grow and thrive in any ordinary soil. Strong roots, 20c; large size, 35c; clumps, 50c.

Japanese Iris

IRIS KAEMPFERI (Royal Purple) Beautiful sort. The color is a clear, deep royal purple, and the flowers are double, having six large, broad petals. Strong roots, 50c; large size, 75c; clumps, \$1.00 each.

MIXED COLORS. A variety of shades and colors. Strong roots, 35c; large size, 50c; clumps, 75c. each.

Wagner Park Double Peonies

First Prize Red

Wagner Park Peonies are the most beautiful of all the Hardy Perennial plants, and should be in every garden, large or small, in bed borders, shrubberies or drives; in park, grass or woodland. They should, therefore, be planted near at hand for close enjoyment of their beauty, as well as in masses for distant color effect.

Our Three First Prize Peonies

These three varieties we consider the very best for general planting or cut flower purposes.

FIRST PRIZE PINK. Beautiful pink, tips shading into silver shade; almost identical to a La France rose. Blossoms are extra large, long stems. Strong roots, 50c; \$5.00 per dozen; large size, 75c; \$8.00 per dozen; extra heavy clumps, \$2.00.

FIRST PRIZE RED. In color this variety resembles the American Beauty rose, but surpasses it on account of its larger size and profusion of blossoms. Strong roots, 50c each; \$5.00 per dozen; large size, 75c; \$8.00 per dozen; extra heavy clumps, \$2.00 each.

FIRST PRIZE WHITE. Large pure white with a very few pink markings in the center. Fine for general cultivation. Strong roots, 75c; large size, \$1.00; extra heavy clumps, \$3.00 each.

SPECIAL OFFER—THREE PRIZE PEONIES—One of each color. Strong roots, \$1.50; large size, \$2.00; extra heavy clumps, \$6.00.

American Beauty Deep pink. Strong roots, 50c; large size, 75c; clumps, \$1.00.

Charlemagne Lilac white, slight blush center. One of the best. Strong roots, 75c; large size, \$1.25; clumps, \$2.50.

Clarissa Rose pink. One of the finest flowering varieties we grow. Strong roots, 50c; large size, 75c; clumps, \$1.50.

RUBRA SUPERBA. Magnificent, rich, brilliant crimson, very large and double. Strong roots, \$1.00; large size, \$2.00; clumps, \$4.00.

Mixed Double Peonies This grand mixture includes some of the finest sorts. No imperfect ones among them. Strong roots, 35c; 3 for \$1.00; \$3.50 per dozen; large size, 50c; 5 for \$2.00; clumps, 75c; 5 for \$3.00.

Single Peonies

Tritoma Pfitzeri

Nothing adds greater charm to a home than attractively planted grounds.

Hardy Flowering Shrubs

Through the hot, dry period of summer, the coolness and rest of a fine shrub plantation is indescribably refreshing. The cultural requirements of ordinary shrubs are very simple. "Success with Shrubs," when the plants are vigorous Wagner Park Stock, is easy, pleasurable, and sure. All Wagner Park shrubs have been transplanted and are in robust health and condition.

VARIETIES SUITABLE FOR SHADY PLACES: Altheas, Berberis, Caryopteris (Blue Spirea), Cornus, Cydonia, Cephalanthus, Deutzia, Forsythias, Lonicera, Philadelphus, Rhus, Sambucus, Spireas, Symphoricarpos (Snowberry), Syringas (Lilacs) and Tamarix. The above varieties will also thrive in sunny, open situations.

VARIETIES WITH VARIEGATED, HIGHLY COLORED FOLIAGE BARK, AND BERRIES: Kerria Variegata, Sambucus Aurea and Variegata, Spirea Opulifolia Aurea, Weigala Variegata. Among trees: Acer Schwedleri, Reitenbachii, Fagus Riversi, Berberis, Cornus Siberica, Cydonia, Euonymus (Strawberry Tree), Eleagnus, Lonicera, Rhus, all varieties, Rhodotypos, Ribes, Rosa Rugosa, Symphoricarpos (Snowberry, Red and White), Viburnum (Snowball) Opulus, Lantana.

Shrubs always have hard wood like the branches of a tree, and this wood does not die during the winter, except in a few of the more tender varieties, which branches should be cut off as soon as the live branches begin to sprout in spring.

PRUNING SHRUBS: In pruning shrubs they should be allowed to take their most natural and perfect form, and when branches become old and weak they should be cut away from the outside, thus thinning out and allowing the new shoots to grow and take their place. The practice of shearing the ends of branches only without thinning out any of the inside branches cannot be too severely condemned, for it not only gives them an unnatural form in which there is little or no beauty, but also causes an increase in the number of small imperfect shoots on the end of the branches, and resulting in a very imperfect growth that produces very few flowers. Pruning should be done right after the flowering season, especially with the early flowering sorts such as Lilac (Syringas), Snowball (Viburnum), Cydonias, Forsythias (Golden Bell), etc., are best pruned in the spring before new growth starts; this will insure good strong branches and large flowers. Dead branches and irregular or straggly growth may be cut away at any time.

ABBREVIATIONS AND PLANTING INSTRUCTIONS: (I) (II) (III) immediately following the name of each variety indicate the height of plants when fully matured. (I) Indicates varieties growing from 1 to 3 feet, plant them from 1½ to 3 feet apart. (II) Indicates height from 3 to 8 feet, plant these varieties from 3 to 5 feet apart. (III) Indicates height from 8 to 12 feet, plant from 5 to 8 feet apart. There are no set rules as to distance for planting as some prefer heavy mass effects which require close planting while more open effects require planting farther apart. We have given both extremes yet one need not follow these exactly.

Special Note M, L, X, S, indicate size of stock offered. "M" indicates thrifty well rooted young plants. "L" indicates large size plants. "X" indicates extra large select plants. "S" indicates specimens.

Ornamental Shade Trees

Judicious planting of ornamental trees and shrubs enhances the value of real estate more than an equal amount of money invested in any other way. Make preparation to plant in their permanent place at the earliest date possible after receiving them. If shipment should arrive in a frozen condition do not unpack, but put in a cool place, free from frost, until perfectly thawed, when they may be unpacked and planted.

In planting make the hole wide enough so that when the tree is set out, you can spread out the roots, always avoiding as much as possible twisting and crowding the roots. Work the soil in carefully about the roots, leaving no cavities or air spaces, and pack the soil firmly.

SPECIAL NOTE—In addition to the regular sizes listed, we can supply extra choice specimens which price varies accordingly to variety and size, \$5.00 to \$25.00 each.

Hardy Ornamental Evergreens

Conifers

Wagner Park Evergreens have been several times transplanted. They are shipped to you with ball of earth and an abundance of roots, carefully burlapped.

From out the thousands of specimens of all sizes and shapes that adorn the landscape at Wagner Park, there can easily be selected trees, bushes and shrubbery that will furnish the desired background for any home, park or public ground. The prices are altogether moderate. We list here only the choicest and most hardy varieties.

A Planting of Pines and Spruces

Picea Excelsa is an exceptionally good variety for general planting and will grow in any ordinary soil. See page 25 for prices.

SPECIAL NOTE

Our soil is especially adapted to digging our Evergreens with a ball of earth, leaving the roots undisturbed, thus assuring successful transplanting at almost any season of the year.

For those who cannot personally visit Wagner Park and see the glorious profusion of foliage, the inexhaustible variety of color tones, the graduations of shade between the dark greens of some varieties and the bluish tints of other species of evergreens, the service of our Landscaps Artists will prove especially helpful. We can select trees and shrubs, conifers and deciduous plants that will answer all the utilitarian purposes of windbreaks, border planting, shade production, and screens for unsightly vistas, no less than those purely aesthetic considerations of garden, lawn and terrace adornment.

ABIES Balsamea. (Balsam Fir) An ornamental native of our forests that is very hardy; has dark green needles of pleasant fragrance; grows rapidly when young and does well in moist soils. 4 to 6 ft., \$6.00; 8 to 10 ft., \$9.00 to \$12.00.

Concolor. (Colorado Silver Fir) 30 to 40 feet. A beautiful and graceful evergreen with soft, silvery-green foliage. Very symmetrical in form. 2 to 3 ft., \$7.00; 7 to 9 ft., \$15.00 to \$20.00.

Nordmanniana. (Nordman's Fir) This massive Fir, from the Crimean Mountains, is of symmetrical form, vigorous and quite hardy. Its foliage is massive, dark green shining above and slightly glaucous below, rendering it a very handsome tree throughout the year, considered here and in Europe as one of the finest of Firs. 2 to 3 ft., \$7.50; 4 to 5 ft., \$10.00; 6 to 8 ft., \$15.00 to \$20.00.

Nobilis Glauca. (Noble Silver Fir) A beautiful conifer whose foliage is a silvery-blue. It is particularly handsome in the spring. 3 to 4 ft., \$7.00 to \$9.00.

JUNIPERUS Cannarti. Pyramidal compact habit, silvery foliage. Nice plants, \$2.00; 2 to 3 ft., \$5.00 to \$7.00.

Chinensis Masculula. Upright growth, good foliage. Nice plants, 1 to 1½ ft., \$3.00.

Glauca. (Blue Virginia Cedar) Throughout the year the leaves are a rich silvery blue. Very handsome and effective. 1½ to 2 ft., \$5.00; 2½ to 3 ft., \$8.00.

Pfitzeriana. Very graceful and one of the hardiest varieties. 1 to 1½ ft., \$3.00 to \$5.00.

PINUS Austriaca. (Austrian Pine) A tall, massive tree with spreading branches heavily plumed with long, stiff, dark green needles. A useful species along the coast, and grows equally well inland. Popular for groupings or as specimens. 9 to 12 ft., \$15.00 to \$20.00.

Banksiana. (Jack Pine) Strong grower and hardy. 3 to 4 ft., \$3.00 to \$5.00; 6 to 8 ft., \$7.00 to \$10.00.

Mughus. (Mugho Pine) This unique alpine species forms a dark dome-shaped bush, broader than its height, and sometimes almost prostrate. Suitable for lawn specimens or evergreen groups, terraces, rockeries, and seaside plantings. 1 to 1½ ft., \$5.00.

Strobus. (White Pine) For specimen, group or mass planting it is extensively used as well as for shade and shelter-belts. The needles are soft and bluish-green. 4 to 5 ft., \$5.00 to \$7.50; 6 to 8 ft., \$10.00 to \$12.00.

Sylvestris. (Scotch Pine) A strong grower with spreading branches and short, stiff, bluish-green needles. Its rapid growth makes it suited for temporary effects, though it is by no means to be despised for permanent ones. Splendid for mass plantings, screens, shelter-belts, and seashore uses. 3 to 4 ft., \$4.00; 5 to 7 ft., \$7.50; 10 to 12 ft., \$12.00 to \$15.00.

PSEUDOTSUGA Douglasii. (Douglas's Spruce) It is similar to the spruce and is a very desirable and beautiful tree for either collective or individual planting. It is a western tree of erect habit and growth. Hardy in the coldest places. 3 to 4 ft., \$5.00 to \$7.00.

HARDY ORNAMENTAL EVERGREENS

(Continued)

PICEA Alba. (White Spruce) One of the very best conifers, especially for cold climates. Compact, upright-growing, long-lived, retaining its branches to the ground, aromatic, drought-resisting; varies in color from light green to glaucous blue. 2 to 3 ft., \$4.00; 3 to 4 ft., \$7.00 to \$8.00.

Black Hills. 2 to 3 ft., \$5.00.

Engelmanna Glauca. Resembles the familiar Blue Spruce. 2 to 3 ft., \$5.00 to \$6.00.

Excelsa (Norway Spruce) (See cut) This, our common spruce, embraces more desirable features than any of the others. It is rapid growing, does well in most soil and withstands the bleak and cold winds of winter. 2 to 3 ft., \$1.00 to \$2.00; 4 to 5 ft., \$5.00; 6 to 7 ft., \$10.00; 8 to 10 ft., \$15.00.

Excelsa Inversa. (Weeping Norway Spruce) A very remarkable form. 4 to 5 ft., \$7.50 to \$10.00; 6 to 8 ft., \$12.00 to \$15.00.

Excelsa Pyramidalis. A spire-like form with very erect branches. 2 to 3 ft., \$5.00.

Orientalis. Its habit is symmetrical and compact. 2 to 3 ft., \$5.00; 4 to 5 ft., \$7.00 to \$10.00.

Pungens Glauca. (Colorado Spruce) The original form of the new famous Colorado Blue Spruce. The foliage of this tree is quite blue. It is a strong, hardy grower in any soil. 2 to 3 ft., \$6.00; 4 to 5 ft., \$12.00 to \$15.00.

Pungens Glauca Kosteriana. (Koster's Blue Spruce) This is the most beautiful of the evergreen family. The rich, silvery-blue coloring of the foliage is a rare bestowal of Nature and one she has saved for these grand trees. It will withstand the coldest climate, is a vigorous grower and will do well in any locality. For color effect nothing equals this beautiful variety. 2 to 2½ ft., \$10.00; 3 to 3½ ft., \$15.00; 4 to 4½ ft., \$20.00; 12 ft., \$35.00 to \$45.00.

RETINISPORA Filifera. (Thread-Branched Retinispora) Of pyramidal outline with drooping deep green foliage. 5 to 6 ft., \$15.00.

Pisifera. Of more open growth than the Obtusas, growing sometimes to a large tree, 50 to 60 feet high, with erect branches, pendulous at the tips; foliage feathery, light green, glaucous beneath. 4 to 6 ft., \$10.00 to \$12.00; 7 to 8 ft., \$15.00 to \$20.00.

RETINISPORA Plumosa. Main stems erect but side shoots assume a plume-like arrangement. The branches are slender and pliable, imparting a feathery appearance. Delicate, glaucous foliage. 10 to 12 ft., \$20.00 to \$22.00; 12 to 14 ft., \$25.00 to \$30.00.

THUYA Ellwangeriana. (Tom Thumb) In many respects it is similar to the Retinispora, and seems to be the connecting link between Arbor-Vitae and that family. 1 to 1½ ft., \$3.50.

Globosa. (Globe Arbor-Vitae) A low compact form with bright green foliage. 1½ to 2 ft., \$4.00 to \$5.00.

Occidentalis (American Arbor-Vitae) Strong vigorous grower. Its upright slender growth makes it desirable for formal planting and for variety in grouping. Its ability to withstand shearing makes it unsurpassed for hedges. 2 to 3 ft., \$3.00 to \$4.00; 4 to 5 ft., \$5.00 to \$7.00.

Orientalis. (Biota) (Chinese Arbor-Vitae) Bushy and upright in growth and very attractive foliage arranged in flat, vertical leaves. 2 to 3 ft., \$4.00 to \$5.00; 6 to 8 ft., \$12.50 to \$15.00.

Pyramidalis. (Pyramidal Arbor-Vitae) Its compact slender column of dark green is ornamental as a lawn specimen for backgrounds and in groupings. 2 to 3 ft., \$4.00 to \$5.00; 3 to 4 ft., \$6.00 to \$7.50; 4 to 5 ft., \$8.00 to \$10.00.

Rosenthalii. Dark green, dense foliage, compact grower. 1½ to 2 ft., \$3.00 to \$5.00.

Siberica. (Siberian Arbor-Vitae) Globular shape, handsome and hardy. 2 to 3 ft., \$5.00 to \$7.00.

TSUGA Canadensis. (Hemlock Spruce) A medium sized tree with pendulous branches whose graceful character is in striking contrast to some of the formal conifers. This is a rapid grower and very hardy. 2 to 3 ft., \$6.00; 4 to 5 ft., \$10.00; 6 to 7 ft., \$15.00 to \$17.50.

Wagner Park Lily Cannas

The Finest Grown

Visitors are invariably enthused at the beauty and size of Wagner Park Cannas with wide, arching leaves and stiff stalks of flaming flowers growing like torches above their noble foliage. The effectiveness is not confined to only a few weeks' display, but being exuberant in growth, a bed of Cannas soon become attractive after planting and each day thereafter adds to its beauty.

Cannas should not be planted out-of-doors until after all danger of frost is over. They may be planted as late as June, but the earlier planted, the better the results. The most practical way to care for the roots over winter is to take up the clumps after the first killing frost, leaving some earth adhere to the roots. Place them in a dry cellar where frost will not penetrate. Do not allow the roots to become too dry or tubers will wither, but care should be taken that they are not too moist to allow mildewing. In spring the bulbs can be started in sand in the house, if kept moist, or can be planted in the open ground as soon as all danger of frost is over.

Such Results May Be Expected From Wagner Park Cannas

Dahlias

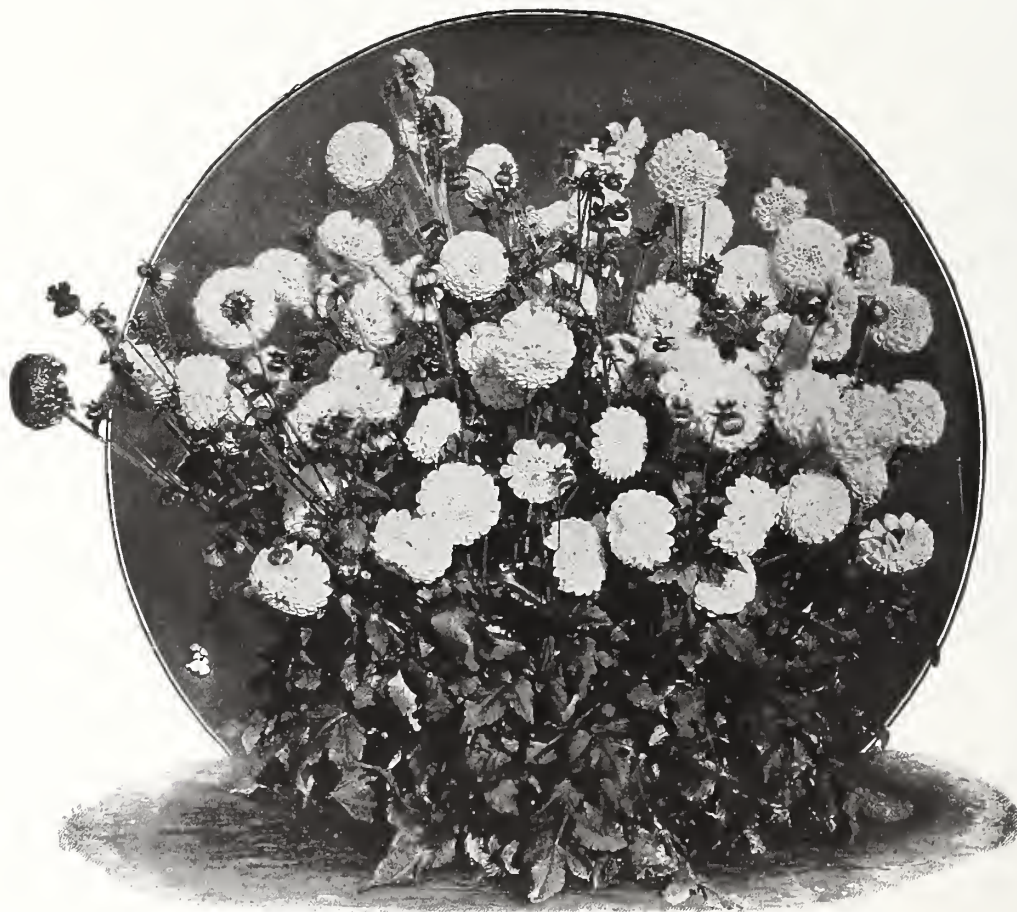

Show, Decorative, Cactus, Pompon and Single Varieties

Within the last few years a wonderful revival of interest in the Dahlias is noted, which has resulted in their now being very important rivals to all other bedding plants.

We recommend Dahlias to anyone wanting an attractive bedding plant and something that will also give a liberal supply of fine cut flowers. They are also very effective planted among shrubs and perennials.

Dahlias are very showy and attractive and best results are obtained if planted early; however, they can be planted very late with good results.

We supply tubers until exhausted, then growing plants from pots but at no advance in prices.

Arabelle. (Show Dahlia) A profuse flowering variety. Color, pale primrose, tipped and shaded old rose and lavender. 25c; \$2.50 per dozen.

A. D. Livoni. (Show Dahlia) This is the loveliest of all. Color, a very light silvery pink, petals beautifully quilled. We consider this one of the very best varieties. 30c; \$3.00 per dozen.

Clifford W. Bruton. (Decorative Dahlia) The best yellow of immense size, perfect form, and of the finest canary yellow. A tall, vigorous grower and extremely free bloomer. Should be in every collection. 25c; \$2.50 per dozen.

Countess of Lonsdale. (Cactus) The freest-flowering Cactus Dahlia in the collection, and perfect in form. Color, an exquisite shade of rich salmon, with just a suspicion of apricot at the base of the petals. Towards the tips the color deepens gradually to the softest carmine pink. The finest variety in the entire list. 25c; \$2.50 per dozen.

Grand Duke Alexis. (Decorative Dahlia) The color is white, tinged delicate pink. 30c; \$3.00 per dozen.

Mary D. Halleck. (Show Dahlia) An excellent upright growing variety producing unusually long stiff stems crowned with a large compact golden yellow flower, full to the very center. A most showy variety and one of distinct habit. 30c; \$3.00 per dozen.

J. H. Jackson. (Cactus) Brilliant dark crimson maroon. One of the very finest. 35c; \$3.50 per dozen.

Snowflake. (Show Dahlia) This superior variety is a very early and profuse bloomer. The flowers are snow white, of perfect form, and full to the center. As a cut flower it is ideal, while for grouping or as a specimen plant it is one of the very best. 30c; \$3.00 per dozen.

Tango. (Cactus) This is the Dahlia for the million. It is a most remarkable variety—blooming in the greatest profusion, and under most all conditions, from the beginning to the end of the season. The color is "Tango Shade." The blending of color is so pleasing, and flowers so perfectly and freely, everyone seeing them is perfectly delighted. The flowers are excellent for cutting and very lasting. Get your order in early. 25c each; \$2.50 per dozen.

Twentieth Century. (Single Dahlia) The most exquisite Dahlia ever introduced. No orchid could be more delicate in color or yet richer in shading. It is purest white at the tips and gradually shading toward the center of the petals to delicate bluish rose, and finally bursting into a flame of brilliant violet-crimson. Not variegated, but a wonderful blending of colors. 25c; \$2.50 per dozen.

White Cactus. A magnificent flower of largest size and distinctly unique form, as the petals are rolled up so that the edges overlay each other. The color is pure white. 30c; \$3.00 per dozen.

Wagner's Superb Gladioli

America. One of the greatest favorites. The color an exquisite shade of delicate pink. \$1.00 per dozen; \$6.00 per 100; select bulbs, 15c; \$1.50 per dozen; \$10.00 per 100.

Augusta. Pure white in color, with blue anthers. It produces long, straight spikes, often with several branches. \$1.00 per dozen; \$7.00 per 100; select bulbs, \$1.50 per dozen; \$10.00 per 100.

Mrs. Francis King. Large scarlet flowers of graceful form, borne on a spike that is tall and straight. It is one of the most popular varieties. Excellent for cutting. \$1.00 per dozen; \$6.00 per 100; select bulbs, 15c; \$1.50 per dozen; \$10.00 per 100.

Halley Delicate salmon-pink, slightly roseate, the lower petals showing a creamy blotch bisected by a red stripe. One of the earliest to bloom. \$1.00 per dozen; \$6.00 per 100; select bulbs, \$1.50 per dozen; \$10.00 per 100.

Panama. A new seedling of America which resembles the parent variety in every way except that it is much deeper pink. A grand variety which evokes words of praise wherever exhibited. Spike very long with flowers large and well arranged. \$1.00 per dozen; \$7.00 per 100; select bulbs, \$1.50 per dozen; \$10.00 per 100.

First Prize Pink. One of the finest varieties for cutting ever sent out; color a beautiful soft flesh pink; orchid like in its coloring and texture; growth and habit perfect. 10c each; \$1.00 per dozen; \$7.00 per 100; select bulbs, 15c; \$1.50 per dozen; \$10.00 per 100.

Choice Bedding Plants Geraniums

Geranium

Geraniums are the best known and most extensively grown of all bedding plants. Much of this is because of their easy culture, freedom of bloom and showy clusters of flowers.

The following collection of Geraniums has been carefully selected as the very best for summer blooming. All have been thoroughly tested by us and we can recommend every one sure to give satisfaction and wealth of beautiful blossoms this season.

Alfonse Ricard. Bright vermilion-scarlet, individual flowers as well as trusses are large size; an excellent variety. 15c; \$1.50 per dozen; large size, 20c; \$2.00 per dozen; extra heavy plants, 30c; \$3.00 per dozen.

Beaute Poitevine. A beautiful salmon pink and free flowering; 15c each; \$1.50 per dozen; large size, 20c; \$2.00 per dozen; extra heavy plants, 30c; \$3.00 per dozen.

Bruant. An old favorite, and still one of the best and most brilliant scarlet varieties. Blooms in large sized trusses and is in bloom continually, while the plant is vigorous and strong in growth. 15c; \$1.50 per dozen; large size, 20c; \$2.00 per dozen; extra heavy plants, 30c; \$3.00 per dozen.

Jean Viaud. Color, a beautiful shade of bright pink, which does not fade in the hottest weather. Extra strong and large foliage. 15c; \$1.50 per dozen; large size, 20c; \$2.00 per dozen; extra heavy plants, 30c; \$3.00 per dozen.

La Favorite. Trusses very large and of the purest snowy white even when grown in the open ground. 15c; \$1.50 per dozen; large size, 20c; \$2.00 per dozen; extra heavy plants, 30c; \$3.00 per dozen.

Mrs. E. G. Hill. Flowers are large and perfect in form, bright salmon, with a light shading at center. One of the freest bloomers, continually covered with large trusses of its beautiful single flowers. 15c; \$1.50 per dozen. Large size, 20c; \$2.00 per dozen; extra heavy plants, 30c; \$3.00 per dozen.

S. A. Nutt. Rich dark crimson. The flowers are of the most perfect shape and large size. The trusses are massive and produced in great number. Close, compact habit. 15c; \$1.50 per dozen; large size, 20c; \$2.00 per dozen; extra heavy plants, 30c; \$3.00 per dozen.

Scarlet Beauty. (New) Our own introduction. This wondrous beauty is a strong, upright grower producing long, stiff straight stems which are crowned with immense clusters of rich, brilliant scarlet flowers and are fully double. A most prolific bloomer and the individual blossoms often measure more than 2 inches in diameter. Frequently there are a dozen perfect flowers on a single stem with 20 to 30 unopened buds so one can imagine the great beauty and size of their flower clusters. Prices, thrifty, well-rooted plants, 30c; \$3.00 per dozen. Larger size, 40c; \$4.00 per dozen; extra heavy plants, 60c; \$6.00 per dozen.

Desirable Pot Plants for House and Veranda

The same evolution has taken place in flowers for the house and veranda as in furniture and other things to complete the decorations of the living room of today. The window full of blooming plants, fuschia, petunia, and a dozen others with their blossoms of brilliant hues is now seldom seen. Palms, ferns and other plants with decorative foliage now have the preference. They are not only more attractive, but require less care and thrive where the others will not.

Ferns

Boston Fern. (*Nephrolepis Bostoniensis*) This variety is the most popular of all Ferns. The leaves are long and slender, drooping gracefully, making very elegant specimen plants. We know of no better all-around decorative plant for all purposes. Many other varieties are offered but anyone desiring the best variety will be recommended the Boston Fern. **Nice young plants, 20c; large plants, 35c; specimens, 50c, 75c, \$1.00 and \$1.50 each.**

Specimen Boston Fern

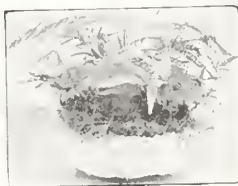

Carax

Japonica Variegata. An ornamental Japanese grass which is extremely useful as a house plant; of easy growth, withstanding the dry atmosphere of the heated rooms. Excellent for the fern dish. **Large size plants, 25c each.**

Small Ferns for Fern Dishes

Nothing adds greater cheer to the home than growing plants.

The use of ferneries as ornaments for the dinner table is very general. We can furnish at all times some fine, healthy plants of the best assorted varieties. **Large plants, 15c each; 12 for \$1.50. Extra heavy plants, assorted kinds, 25c; \$2.50 per dozen.**

Asparagus

Plumosus Nanus. A beautiful plant with bright green, gracefully arched foliage. An excellent pot plant. **Nice plants, 15c; larger, 25c; heavy bushy plants, 50c.**

Sprengeri. Especially useful to be grown as a pot plant for decorative purposes or for planting in ferneries or suspended baskets. It grows freely the whole year round, as it withstands dry atmosphere. It makes an excellent house plant. **Nice plants, 15c; larger size, 25c; heavy bushy plants, 50c.**

Palm Kentia Belmoreana

The hardiest, and while of slow growth, they withstand the dry atmosphere of the house better than any other variety. Fine, rich green foliage and very graceful. Fine healthy growing plants from 3 inch pots. **10 to 12 inches high, 50c each.**

Fine healthy growing plants, 12 to 15 inches high, 75c to \$1.00 each.

Bougainvillea. A plant of rapid growth, suitable for covering trellises or lattices in warm climates as extreme south where no frosts or for indoors in the North. Can be kept trimmed into oval or bush shape when it makes a desirable pot plant. Flowers are rosy crimson and bell-shaped and produced in greatest profusion. Excellent for jardineres. **Nice thrifty plants, 25c each; larger size, 35c to 50c each; extra heavy plants, 75c to \$1.00 each.**

Other Choice Outdoor Bedding Plants

Antirrhinum. (Snap Dragon)

Popular plants for bedding and of special value for cutting. The stock we offer has been grown from a select strain. Any variety. **Nice thrifty plants, at 10c each; \$1.00 per dozen; larger size, 15c; \$1.50 per dozen.**

Daphne. Soft rose-pink.
Golden Queen. Rich, pure yellow.
Firebrand. Rich, deep red, fine.
Mont Blanc. Pure white, flowers.

Nothing equals
 Snap Dragons

 summer flowers.

Salvia

Bonfire. (Scarlet Sage) This is one of the finest of the Scarlet Sages. Its erect spikes of brilliant scarlet flowers stand clear above the dark green foliage and completely cover the plants. **10c; \$1.00 per dozen; \$7.00 per 100. Larger, 15c; \$1.50 per dozen; \$10.00 per 100.**

Fuchsias

Well known favorites for planting out in partially shaded positions during the summer or for early spring-flowering in the window or greenhouse.

Black Prince. Bright, waxy carmine sepals and pink corolla. **15c; \$1.50 per dozen; larger, 25c to 35c each.**

Coleus

Are almost indispensable where beds of brilliant foliage are wanted. Also used for edging and ribbon beds.

Brilliant Red. 10c; \$1.00 per dozen; \$6.00 per 100. **Larger, 15c; \$1.50 per dozen; \$8.00 per 100.**

Golden Bedder. Fine yellow, clear and distinct. **10c; \$1.00 per dozen; \$6.00 per 100. Larger size, 15c; \$1.50 per dozen; \$8.00 per 100.**

Wagner's Lawn Grass Seed

HOW TO MAKE A LAWN

All good gardeners now use seed for the making of a good lawn in preference to turf or sod. The preparation of the ground is an important feature and the best soil is a medium texture, neither very heavy nor exceedingly light; the surface should be thoroughly pulverized and level. Remove all stones, sticks, sods, etc., harrow or rake it fine and roll it firm. It is impossible to get the soil too fine to receive the seed. Sow the best seed obtainable, it is always cheapest in the end. It is best to sow seed liberally, not only to produce a lawn quickly, but because the best lawn seed produces fine-leaved grasses, which should take entire possession of the ground at once, thus choking out and preventing the development of any weed seeds, which are apt to be in all soils. Distribute seed evenly, going both ways across the plot. After sowing, cover the seed by raking lightly; then roll the ground.

When the grass has become well rooted, use lawn mower for cutting it, and keep mower sharp, as if dull it will pull and injure the grass, besides causing the lawn to have an uneven appearance. Never allow the grass to become so high that the mower will take off the first joint, as this is an injury. Mow as often as necessary; in growing weather at least once a week. Let the short clippings remain on the lawn, as they wither and dry and form a protection to the roots. When the clippings are long, they should be raked off, for, besides being unsightly, they are injurious. When the weather is dry and hot, avoid cutting too close.

QUANTITY OF LAWN GRASS SEED USUALLY REQUIRED IN MAKING A NEW LAWN

10 x 25 feet requires.....	1 pound	40 x 60 feet requires.....	10 pounds
25 x 50 feet requires.....	5 pounds	50 x 100 feet requires.....	16 pounds
40 x 50 feet requires.....	8 pounds	50 x 150 feet requires.....	24 pounds

For Renewing Old Lawns—Use about one-half the quantity given above.

"WAGNER PARK" Grass Seed—A special mixture which we prepare. Prices: 50 cents per pound; 5 pounds for \$2.20; bushel (20 pounds) for \$8.10.

"PREMIUM" Grass Seed—This mixture, while not quite equal in quality to "Wagner Park" variety, is a good clean mixture and an excellent lawn may be produced with it. Prices: 45 cents per pound; 5 pounds, \$1.90; bushel (16 pounds) \$5.65.

"SHADY LAWN" Grass Seed—Fine for shady places and where other grasses will not grow. 50 cents per pound; 5 pounds, \$2.20; bushel (16 pounds), \$6.25.

Prices of seed for Golf grounds quoted on application.

GENTLEMEN: On other side of this sheet is a sketch of my grounds I wish to improve, and I shall be pleased to receive a plan from you as per offer in Catalog. I enclose \$2.00 (currency) for which you are to send me a coupon good for this amount on an order for plants amounting to \$10.00 or more.

Name.....

Town.....State.....

Suggestions are always a help to us in preparing a plan that will meet the local conditions and individual tastes of every person, so kindly answer the following questions that are of particular interest to you.

Do you prefer natural effects?.....

Do you prefer formal effects?.....

Do you prefer we use our own judgment?.....

Do you want us to locate walks? (If so, show all entrances to buildings, etc.).....

Do you want a driveway? (If so, show where you prefer it.).....

Do you want any tender plants?.....

Do you prefer all hardy plants?.....

Do you like a lot of shrubbery?.....

Do you want a rose bed?.....

Do you want any hedges? Where preferred?.....

Do you want a formal flower garden?.....

Do you want an Arbor or Pergola?.....

Do you want us to locate trees? (If any on grounds, show their location on sketch.).....

Do you want any fruit trees?.....

Do you want any street or avenue trees?.....

Do you want any evergreens?.....

Do you want any particular kind of trees?.....

Do you want a vegetable garden? (If so, where do you prefer it?).....

When do you contemplate planting, this Season, or sometime later?.....

We receive many plans during our greatest rush that are not used until the following season and if we were advised to the effect that we may prepare them later after our rush is over it would not only accomodate us but our landscape department could then give more time to each and every plan and yet have them completed when ready to use them.

What is the limit you wish to expend for flowers?.....

This last question is a very important one, owing to many having quite large lawns, yet they do not desire to expend any great amount for flowers. If we know about the amount you wish to expend for flowers, we will arrange the plantings accordingly and you will receive a plan that will be practical for your grounds.

REMARKS

USE THIS SHEET FOR MAKING YOUR SKETCH WHEN SENDING FOR PLAN

For Terms and Other Information Regarding Plans See Catalog.

NOTE—The sketch need not be drawn to scale, but should give the principal dimensions, direction the house faces: North, East, South or West, and the location of entrances, dimensions of buildings, and windows in foundation, etc.: also location of walks, drives, if any trees and shrubbery, or other permanent things that are not to be removed. Also location of all entrances to lot and buildings, any objectional views to be retained, and terraces, or grades of any importance. Unless we have this information it will be impossible to prepare a plan that will be practical.

PLEASE DO NOT OVERLOOK ANSWERING QUESTIONS ON OTHER SIDE OF THIS SHEET

WAGNER LANDSCAPE SERVICE

makes possible *immediate* effects.

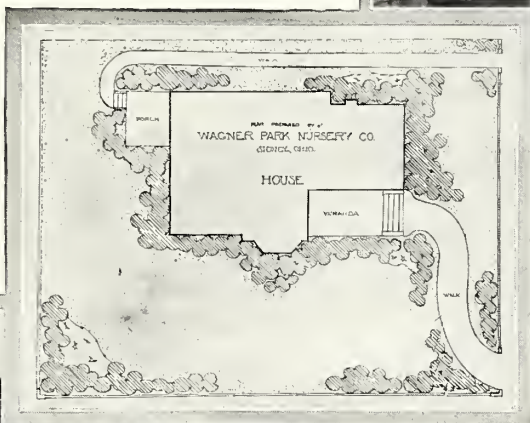

While our Landscape Service is complete in every detail, perfectly equipped to plan layouts and supervise the planting of all private and public grounds, we maintain a department especially for the owner of the ordinary home grounds. For a special fee of only \$2.00 we are prepared to make a plan for your grounds—giving you a garden that will bloom from spring-time to frost. At the same time you receive a coupon for the \$2.00, good for credit on an order for plants amounting to ten dollars or more. You receive a sketch drawn especially for your grounds—cre that will mean an individual beauty and distinctiveness for your grounds,—

and you get the personal service of

Janet Brown

Janet Brown is an artist in the designing of home gardens. She has made an extensive study of effects and her work is attracting unusual attention, not only for its originality, but for its perfect harmony of design, even with the smallest grounds. She has spent a number of years in this work, and shows promise of becoming one of the most famous Landscape Artists of the country.

Send us a rough sketch of your grounds, showing locations of buildings, walks, drives, if any, also trees and shrubbery, or any other permanent things already established and that are not to be removed. Show location of all the entrances to lot and buildings, any objectionable or desirable views from the residence and grades of any importance.

Photographs will also be of valuable assistance if convenient to send. The sketch need not be drawn to scale, but should show the width and depth of the lot, and other principal dimensions.

We wish to impress upon the minds of our customers that this is not a scheme of any kind by which we are receiving pay for the sketch, but it is done only as a safeguard against some curious persons that would impose upon us and ask for plans with little or no intention of making use of them.

NOTE—The above arrangement applies principally to home grounds of moderate size and not to extensive or elaborate grounds where a large amount of work is involved. We are prepared also, to do this class of work and solicit correspondence from parties desiring such work. We furnish plans by mail, or when desired, will send a landscape gardener to do the work or instruct you how to do it. Our terms are very reasonable.

We Design and Plant Large Public and Private Grounds of All Kinds

Planting and furnishing stock for Parks, Factory Grounds, Schools, Universities, Sanitariums, and Hotel Grounds is one of our specialties, and we are prepared to plan and advise how and what to plant to produce the best results and with the least amount of labor and expenditure. YUCCAS Hardy Evergreen Plants of Great Hardiness and Beauty

Tall, graceful spikes of creamy white blossoms, like giant lilies-of-the-valley, rising from luxuriant evergreen foliage, makes the Yucca one of the most brilliantly effective plants for showy display. So hardy and easy to grow that it transforms the sandiest, rockiest, most barren spots into year 'round beauty. Illustrated here, and fully described on page 14.

The **YUCCA PLANT** is so unusual and so strikingly effective, either when planted alone or in combination with other evergreen, that it attracts attention on the humblest lawn, and is worthy of a place in the most pretentious garden.

The rich, green foliage grows in thick clumps of long, slender, graceful evergreen leaves. When planted in good soil the flower stalks grow tall and each stem frequently bearing from 50 to 200 big, creamy white, bell-like blossoms. Bearing in mind that an individual blossom often measures 2 inches,

one can picture the rare effectiveness of large clusters of these.

YUCCAS are particularly desirable on account of their hardiness and their ability to grow in poor, scanty soil, on terraces, or among rocks—any place, in fact, where there is just enough earth for their roots to take hold. All in all, the Yucca is one of the most satisfactory plants, and we recommend it heartily for giving year-round beauty to any lawn.
